

# TARGOVIȘTE

The Slovenian team arrived in Romania on 1st March, on the day of celebration the beginning of spring. Flowers and marties were given to us by the hosts who made us feel at home and at ease.

The truth is that Targoviște is a town of Vlad Tepeș, Drakula. Castle Bran was said to be his home only to create a mysterious story about

that cruel but respected Romanian ruler.

Children and teachers at school Matei Basarab welcomed us heartily and prepared memorable displays and unforgettable moments of dancing pleasure.

## CELEBRATION FOOD

By the end of 2009 all partners discussed celebrations throughout the year in each country. In Slovenia, each month gives us a reason to celebrate.

Easter and Christmas are festivals that connect all of us, others give colour to multicultural union.

The end product will give us not a mere insight into cuisines but also practical advice for preparing certain delicious meals.

## HEALTHY LIFESTYLES

The beginning of the new year was also the commencement of the last part of our project, Healthy Lifestyles. It includes three different topics: An Everyday in the Life of an European Child, School Meals and Sport Activities.

Children in all participating countries are alike. They like various sports, play musical instruments, and enjoy computer games. They find time to do some housework and socialize with friends.

All schools in the project except Denmark and Romania can offer their students hot meals. The good thing is that a great majority of children have breakfast and fruit provided at schools.
